(The "Company" or "SYME")

#### **Funding update**

SYME, the fintech business which provides an innovative fintech platform (the "**Platform**") for use by manufacturing and trading companies to access Inventory Monetisation© ("**IM**") solutions enabling their businesses to generate cashflow, announces the following update in respect of the US\$5,150,000 on-demand convertible funding facility with Nuburu Inc., a NYSE listed (NYSE American: BURU) high-tech company of which Alessandro Zamboni, a director of the Company, is Executive Chairman ("**BURU**") (the "**New On-Demand Facility**").

As set out in the announcement dated 19 March 2025, SYME was due to receive the second tranche of US\$500,000 on or before 31 March 2025. This amount has currently not been received by the Company, however the latest communication that the board of directors of SYME has had with BURU, via Alessandro Zamboni, is that the US\$500,000 will be received by the Company shortly.

The Company will issue a further update once the US\$500,000 (that was due on or before 31 March 2025) has been received.

As set out in the announcement dated 19 March 2025, SYME previously received US\$150,000 from BURU as an advance payment under the New On-Demand Facility. To date no other amounts have been received from BURU under the New On-Demand Facility.

Alessandro Zamboni, the Chief Executive Officer of the Company, is a related party in connection with the New On-Demand Facility due to the fact that he is also the Executive Chairman of BURU.

For the purposes of UK MAR, the person responsible for arranging release of this announcement on behalf of SYME is Alessandro Zamboni, CEO.

#### **Notes**

SYME and its operating subsidiaries provide its Platform for use by manufacturing and trading companies to access inventory trade solutions enabling their businesses to generate cashflow, via a non-credit approach and without incurring debt. This is achieved by their existing eligible inventory being added to the Platform and then monetised via purchase by third party Inventory Funders. The inventory to be monetised can include warehoused goods waiting to be sold to end-customers or goods that are part of a typical import/export transaction.
